

MAINE INSTRUMENT FLIGHT

ACKNOWLEDGEMENT OF RENTER PILOT NOTIFICATION

Although Maine Instrument Flight has a comprehensive insurance package for our own interest, the coverage does not extend to protect the interest of our renters.

Most flight schools do not carry liability protection on behalf of their renter pilots.

To best protect your interest you may wish to carry your own insurance while flying non-owned or borrowed aircraft. A policy would cover defense costs as well as any settlement payment awarded by the courts to an injured party up to the limits selected by you on the policy.

Further information and a brochure about this coverage can be obtained from the **Aircraft Owners and Pilots Association** @ 800-622-AOPA or from **Avemco Insurance** @ 800-638-8440.
